

Technical features

- Lever handle or knob – the dual-setting springing accommodates both alternatives to optimum effect
- Special cushioning elements provide for effective latch damping so the door clicks quietly yet securely into place
- The rugged internal components of the lock meet all the requirements of DIN 18 251, Class 3, satisfying the type test criteria of 200,000 latch operations and 50,000 deadbolt cycles in a fixed fitting to DIN 18 257
- The fully closed zinc die-casting lock case ensures enhanced protection
- A sturdy metal latch rounds off the proven stability concept
